

# C2C/CITDA 2007 Student Design Competition Winners Selected

There were nearly 160 entries from 25 different institutions for this year's print and product design competition developed by AATCC's Concept 2 Consumer (C2C) Interest Group and the Computer Integrated Textile Design Association (CITDA). Submissions were invited from both graduate and undergraduate students from institutions with textile design, art, interior design, and fashion merchandising programs.

Five finalists in each sub-category were asked to submit storyboards and final products for judging. Entries were evaluated for color, texture, visual appeal, aesthetics, reproducibility, and functionality by final judges Genevieve Garland and Kerry King of [TC]<sup>2</sup> and Karen Williams of D2 Designs.

Winning entries received US\$1,000 for first place and US\$500 for second place, plus complimentary student registrations for the 2007 AATCC International Conference & Exhibition (IC&E) to be held October 2-4 in Charleston, S.C., U.S.A.
