[Keeping Dry: The Role of Moisture Management](#)

"Moisture Management" can refer to a variety of fabric technologies. Controlling the moisture properties of fabric can be complex, but it's vital for sports and outdoor performance apparel.

[Textiles 101: Testing Moisture Management Performance](#)

AATCC has developed several new test methods for assessing the moisture management properties of textiles. Make sure *your* fabrics make it to the finish line!

[AATCC Names New Technical Director](#)

Lou Protonentis, a textiles industry professional who has served in director-level positions with Cotton Incorporated and Microban International, has joined AATCC as the Association's new Technical Director.

[SGS to Deliver AATCC International Training](#)

In 2013, SGS Certified Trainers in nine locations, including China and Bangladesh, will deliver training sessions in AATCC Test Methods, AATCC Textile Testing in Coordination with ASTM International, and Best Practices Using AATCC Gray Scales for Visual Color Assessment. A total of 89 training programs are scheduled.
