DARE to CARE About MENSWEAR

Menswear is emerging from its legacy of stodgy sameness into a new, engaging phase. Why are more men's designers taking note? Are more men adapting, creating, and following men's fashion trends? *What's in it for you, dude?*

Textiles 101: More Than it 'Seams'

Seams hold it all together, but also represent a garment's point of weakness, from a quality standpoint. How are seams tested? How important is seam testing? What are the varieties of and alternatives to seams?

How Does YOUR Lab Compare?

Dependable test results aren't an accident. One way to ensure the reliability of the data produced in your lab is to compare the results for the same test and the same fabric with the results from other labs. Anonymously gauge your laboratory's performance against that of hundreds of others around the globe.

Yang To Speak at AATCC International Conference

Charles Q. Yang, winner of the AATCC 2012 Olney Medal, will speak on "Crosslinking: A Route to Improve Cotton Performance" at the 2013 AATCC IC, April 9-11 in Greenville, SC.
