

# Table of Contents

- 1 Synthesis and Characterization of Inorganic Pigment Nanoparticles for Textile Coloration Using Microwave Techniques**  
By M. Gouda, King Faisal University and National Research Center, Cairo; K. M. Haggag, National Research Center, Cairo; W. E. Boraie, King Faisal University and Ain Shams University; and A. Aljaafari and Y. Al-Faiyz, King Faisal University  
**Key Terms**  
Coloration, Crockfastness, Inorganic, Microwave Irradiation, Nanoparticles, Washfastness  
DOI: 10.14504/ajr.3.3.1
  
- 9 Garment Ventilation Strategies for Improving Heat Loss in Structural Firefighter Clothing Ensembles**  
By Meredith McQuerry, Emiel DenHartog, and Roger Barker, North Carolina State University  
**Key Terms**  
Comfort, Firefighter, Heat Stress, Turnout Gear, Ventilation  
DOI: 10.14504/ajr.3.3.2
  
- 15 Antimicrobial Functionalization of  $\beta$ -Cyclodextrin Treated Fabrics**  
By Usha Rashmi Bhaskara and M. M. C. G. Warmoeskerken, University of Twente, and Merlin G. D. Nabers, Nanomi B.V.  
**Key Terms**  
Antibacterial, Chlorhexidine, Cotton,  $\beta$ -Cyclodextrins  
DOI: 10.14504/ajr.3.3.3
  
- 25 Preparation and Characterization of Honey-Treated PVA Nanowebs**  
By Uday Turaga, Vinitkumar Singh, Anna Gibson, Shahrma Maharubin, Carol Korzeniewski, Steven Presley, Ernest Smith, Ronald J. Kendall, and Seshadri Ramkumar, Texas Tech University  
**Key Terms**  
Antimicrobial, Breathability, Electrospinning, FTIR, Honey, Nanofibers, Poly(vinyl alcohol), PVA, Tensile Properties  
DOI: 10.14504/ajr.3.3.4
