

**Buyer's Guide**

Flame Retardants Buyers' Guide—1988	Jan./15
2nd Annual Garment Dyeing Buyers' Guide—1988-89	May/25
Garment Drying Buyers' Guide—1988-89	July/15
Process Controls Buyers' Guide—1988-89	Nov./15

**Carpets**

Improving Carpet Wastewater Treatment	Jun./13
Technical Evolution Of Kusters Carpet Dyeing Systems	Jun./20
Expanding Computerized Systems In The Carpet Mill	Jun./23
A New Level Dyeing Trichromatic Combination For Nylon Carpets	Aug./28
Lotus Carpets: Keeping The Contract Market In Focus	Sept./66

**Computerized Systems**

Expanding Computerized Systems In The Carpet Mill	Jun./23
Basic Laws Of Nature Plus Computer Technology Equal Dryer Performance	Jul./24
Targeting Color Control Software To Textile Dyers and Printers	Aug./35
Optimizing Calibration Dyeings For Computer Color Matching	Aug./44
Process Controls Buyers' Guide—1988-89	Nov./15
A Remote System For On-Line Color Measurement	Nov./34

**Dyeing**

Potential For Dyeing Easy Care Cotton Garments	Jan./29
Print Dyeing: An Opportunity For Garment Dyers	Feb./13
Investigating The Fate Of Dyes In The Environment	Feb./19
Preparing Diethylaminoethyl Flax/Polyester Fabric With Improved Dyeability	Feb./34
Factors Influencing The Dyeability Of Cotton After Cross-Linking	Mar./15
Improved Dyeing With Redox Systems—Part V: Utilization of Redox For Fixation Of Direct Dyes On Wool	Mar./35
Balancing Color Yield, Cost And Quality In Continuous Thermal Fixation Dyeing	Apr./13
Measuring The Effect Of Fixatives On Direct Dyes	Apr./28
Garment Dyeing With Fiber Reactive Dyes	May/36
The Role Of Sulfur In Garment Dyeing	May/52
An Overview On Garment Dyeing	May/58
Thiocarbonate Built-in Catalyst For Dyeing Flax/Polyester Blend With Reactive Dyes	Jun./26
Improved Dyeing With Redox System—Part VI: Role Of Redox System In Dyeing	Jun./35
Dyeing Properties Of Thiadiazole Disperse Dyes Containing Trifluoromethyl Group	Jul./32
Single-Step Reactive Dyeing And Chemical Modifying Of Cotton With Acrylamide	Jul./34
Trends In Jet Dyeing Technology	Aug./24
Developing Novel Effects To Enhance Garment Dyeing	Aug./40
Optimizing Calibration Dyeings For	

# ADR EDITORIAL INDEX

## Volume 77 (1988)

Entries to the right of title indicate month of issue and page number where story begins.

Computer Color Matching	Aug./44
Ultrasound—A Novel Dyeing Accelerant	Oct./15
Setting Up Laundry Facilities For Garment Dyeing	Oct./23
Improving Polyester/Cotton Blend Dyeability Via Thiocarbonation Of The Cotton	Dec./41

**Environment**

Investigating The Fate Of Dyes In The Environment	Feb./19
Effluent Neutralization Using Flue Gas	Apr./32
Improving Carpet Wastewater Treatment	Jun./13

**Equipment**

ITMA '87 Wet Process Review	Mar./30
ITMA '87 Review—Part IV Process Controls, Inspection Systems	Apr./44
2nd Annual Garment Dyeing Buyers' Guide—1988-89	May/25
Technical Evolution Of Kusters Carpet Dyeing Systems	Jun./20
Garment Drying Buyers' Guide—1988-89	Jul./15
Trends In Jet Dyeing Technology	Aug./24
Controlling Chemical Concentration In Preparation Ranges	Aug./51
Improving Automation In Textile Printing	Aug./54
Process Controls Buyers' Guide—1988-89	Nov./15

**Exhibitions**

NAHM's 84th Annual Convention	Mar./26
A.A.T.C.C. 1988 Annual Technical Conference	Aug./70
ATME-I 1988—Textile Machinery Exhibition International	Sept./25

**Finishing**

Troubleshooting In Finishing	Jan./35
ITMA '87 Review—Part I: Preparation & Finishing	Jan./44
Solubility Parameters For Transfer Printing of Cotton Pretreated With Ethylene Glycols	Feb./29
Preparing Diethylaminoethyl Flax/Polyester Fabric With Improved Dyeability	Feb./34
Improved Dyeing With Redox Systems—Part V: Utilization of Redox For Fixation Of Direct Dyes On Wool	Mar./35
Sublimation Transfer Printing Of	

Cotton Pretreated With Cross-Linking Agents And High Boiling Glycols	Mar./40
Energy Saving And Trouble-Free Combined Scouring/Bleaching System Using Sodium Chlorite	Apr./20
Measuring The Effect Of Fixatives On Direct Dyes	Apr./38
A New Technology For Stoneless Stone-Washing Applications	May/19
Thiocarbonate Built-in Catalyst For Dyeing Flax/Polyester Blend With Reactive Dyes	Jun./26
Improved Dyeing With Redox System—Part VI: Role Of Redox System In Dyeing	Jun./35
Single-Step Reactive Dyeing And Chemical Modifying Of Cotton With Acrylamide	Jul./34
Development of Silicone Microemulsion-Based Softeners	Aug./36
A One-Bath Bleach And Dye System For Cotton Hosiery	Aug./48
Controlling Chemical Concentration In Preparation Ranges	Aug./51
Synthesis And Application Of Reactive Carbohydrates—Part V: Appropriate Conditions For Application Of Reactive CMC Finishes To Cotton Fabric	Sept./72
Effect Of Polyacrylic Acid-Epichlorohydrin On Properties Of Easy-Care Cotton	Oct./32
Preparation And Characterization Of Cabamoyl Ethyl Carboxymethyl Starch	Oct./41
Improving Polyester/Cotton Blend Dyeability Via Thiocarbonation Of The Cotton	Nov./41
Aspects Of Combined Finishing And Transfer Printing—Part I: Elastomers	Dec./45

**Flame Retardants**

Flame Retardants Buyers' Guide—1988	Jan./15
-------------------------------------	---------

**Garment Dyeing**

Print Dyeing: An Opportunity For Garment Dyers	Feb./13
A New Technology For Stoneless Stone-Washing Applications	May/19
2nd Annual Garment Dyeing Buyers' Guide—1988-89	May/25
Garment Dyeing With Fiber Reactive Dyes	May/36
The Role Of Sulfur In Garment Dyeing	May/52
An Overview On Garment Dyeing	May/56
Developing Novel Effects To Enhance Garment Dyeing	Aug./40
Setting Up Laundry Facilities For Garment Dyeing	Oct./23

**Garment Drying**

Garment Drying Buyers' Guide—1988-89	Jul./15
Basic Laws Of Nature Plus Computer Technology Equal Dryer Performance	Jul./24
Advances In Radio Frequency Garment Drying	Jul./28
Factors To Consider In Selecting Textile Dryers	Aug./32

Ultrasound—A Novel Dye  
Accelerant Oct.115

**Water In Processing**  
Improving Carpet Wastewater  
Treatment Jun.113

# Q. What's Morton Thiokol 2-Mercaptoethanol doing in the textile industry?

A. Providing the same outstanding performance and consistent high quality that can be found in stabilizers, dyestuffs, pharmaceuticals, rubber chemicals, flotation agents, and plasticizers.

But there's an added benefit that makes Morton Thiokol 2-Mercaptoethanol more than a water soluble bifunctional mercaptan, or a cross linking agent or a high purity material.

Our unique service network—a team of marketing, operations, and R&D people available to assist you in every way possible—is what makes the difference.

See for yourself what Morton Thiokol 2-Mercaptoethanol is doing in the Textile Industry. Call (312) 807-3138.
