INDEX TO VOLUME 49

FOLLOWING is an index by authors and by subject matter for Volume 49, covering the twenty-six issues of AMERICAN DYESTUFF REPORTER published during 1960.

It is important to remember that all material is indexed according to page numbers which appear in PARENTHESES in each issue. Pages which contained editorial (text, non-advertising) material have been numbered in parentheses consecutively throughout the year.

Pages dealing with the Proceedings of the American Association of Textile Chemists and Colorists are indicated by the letter "P" preceding the page number.

Following is a table indicating the issue dates and numbers in which the various numbered pages appeared:
