INDEX TO VOLUME 54 (1965)

AKitu, R, Russell D and Sievenpiper, F ——
Nylon Chemistry and Dyeing Response ................................................. P1079

Allen, E ——
Digital Computer Color Matching .......................................................... P965

AltFer, E ——
Optical Brighteners ............................................................................. P246

AltScher, S ——
Potential Applications of Polyurethanes in Textiles .......................... P982

Baer, D R and Landerl, H P ——
Cationic Dyes and Their Application to Acrylic Fibers .................. P222

Barrett, P ——
New Developments in Polyester Fibers ............................................. P147

Beaumont, R H ——
Finishing Chemicals for Knit Goods: Should They Really Be Biodegradable? .................. 667

Beaumont, W ——
The Delayed Cure Process ................................................................ P746

Benerito, R R, Mckelvey, J B, Calamari, L D and Berni, R J ——
Novel Finishes Imparted to Cotton Through Cellulose-Epoxide Reactions 426

Berch, J and Pepar, R ——
Relation Between Surface Properties of Cotton Finishes and Wet Soiling .................................................. P63

Bergman, C A and Mayew, R L ——
Textile Lubricants, Antistatic Agents and Surfactants ................. 889

Berni, R J, Benerito, R R, Mckelvey, J B and Calamari, L D ——
Novel Finishes Imparted to Cotton Through Cellulose-Epoxide Reactions 426

Bixler, D A ——
Chemicals for Sizing ...................................................................... 890

Black, C K ——
Dyes for the Textile Industry ............................................................. 886

Borgheatty, H C and Edelstein, S M ——
Dyeing and Tanning Leather in the Sixteenth Century ................... 949

Bostwick, C O and Karrholm, E M ——
Wrinkling and Wrinkle Recovery of Wool Fabrics Determined by Wear Tests and Laboratory Methods .... 392

Braunlich, R H ——
New Developments in Rayon ............................................................ P160

Bruno, J S, Reid, J D and Reinhart, R M ——
Some Aspects of the Preparation of Dimethylid Monoalkyl Carboxylics and their Reaction with Cellulose P485

Buchholz, S H W ——
Recent Developments in the Thermosol Dyeings of Polyester Fibers and Polyester Fiber Mixtures ........ P545

Bullock, J B, Guthrie, J D and Welch, C M ——
The Prevention of Yellowing in the Wash-Wear Finishing of Cotton with Bis(2-Hydroxyethyl) Sulfone 780

Calamari, L D, Berni, R J, Benerito, R R and Mckelvey, J B ——
Novel Finishes Imparted to Cotton Through Cellulose-Epoxide Reactions 426

Carra, J H, De Gruy, I V, Rollins, M L, Moore, A T and Goynes, W R ——
Electron Microscopy of Chemically Modified Cotton .................... 426

Champlin, F R and Fays, R L ——
Effects of Ultraviolet Radiation on Color and Infrared Spectra of Azo Compounds .................. P1000

Cheaney, D W ——
New Developments in Acrylic Fibers .............................................. P152

Conner, C ——
Vapor Phase Reaction of Formaldehyde with Silicone Modified Cotton 618

Effect of Different Dyes, Resins and Softeners on Per-
The Curing Aspects of Permanent Crease and Permanent Press Processes

MILLER, L A and FONG, W

Production Range for Wurlan Shrink-Resist Treatment of Woolen Fabrics

MOORE, A T, GOYNES, W R, CARRA, J H, DE GRUY, I V and ROLLINS, M L

Electrochemical Method of Chemically Modified Cotton

Performance Qualities of Cotton Fabric Treated by Electrochemical Methods and Delayed Curing Processes

MOORE, J L and STALTER, N J

Preparing Surface-Sensitive Cottons and Synthetic Cotton Blends in the Du Pont Rapid Bleach Process

MORAN, C M and VAIL, S L

Segment Mobility in Fibers as Shown by High Temperature Meridional Diffusion

MORIN, F E

Dye It Yourself–The Household Fabric Dyes Story

MOSUALLI, F S and MYLES, W J

Gas Fading of Acetate and Triclate Prints

MURPHY, A L, HAMALAINEN, K, KEATING, E J and COOPER JR, A S

Highly Substituted Acetylated Cotton. Properties and Processing Techniques

MUSCELLI, L W and WAGNER, R F

Dyeing and Wet Processing of Stretch Fabrics

MYLES, W J and MOSUALLI, F S

Gas Fading of Acetate and Triclate Prints

NIAGARA FRONTIER SECTION

Differential Thermal Analysis in Predicting Fiber Blend Performance and Properties

NIRENBERG, R

Knot–The Truth in Permanent Press

NORTHERN PIEDMONT SECTION

The Effect of Stripping on the Lightfastness of Reddy Nylon

NUESSLE, A C, LINDSLY, W C and KANTNER, G C

Dyeing of Synthetic Polymers and Its Uses

ORDWAY, C B

Recent Advances in Direct Dyes and Direct Dyeing Techniques

ORR, R S, HEBERT, J J, WEISS, L C, TSOI, R H and GRANT, J N

Some Relations Among Fiber Properties, Fabric Crease Recovery, and Other Fabrics for Cotton Processors

PARISH, G J

Continuous Rinsing of Impurities from Textile Fabrics

PERRY, F G, SAYLOR, P W and FARMER

Dyeing and Finishing of Du Pont’s Self-Crimping Fibers

PEARSON, R A, LARSON, G S and THOMAS, R J

Dyeing of Blends Containing Dyestuffs, Polyester and Lycra Spandex Fibers

PETERSON, H and BURKHART, J

Relation Between Surface Properties of Cotton Finishes and Segregation of Lysing Agent

PERCARPINO, F

Modernization of a Textile Dyeing and Finishing Plant

PERKINS, R M, DRAKE JR, G L and REEVES, W A

Technique for Improving Durable Flame Resistance to the Surface of Low Density Cotton Textiles, A

This index is also published as a separate 8-page reprint to facilitate its insertion into bound volumes of ADR. For your free copy, write to ‘Index’, American Dyestuff Reporter, 44 East 23rd Street, New York, NY 10010.
Fiber Flocking—A Rapidly Expanding Field (Kantner)

Fiber Blend Performance and Probing Fiber Properties

Electron Microscopy of Chemically Modified Cotton (Roelofs and Harper)

Effect of Treated Filling Yarns on Properties of Slack Polyester Fabric (Reewy, Walker, Hoffman and Moore)

Effect of Cyclization and Substitution in Aniline Couplers

Modernization of a Textile Dyeing and Finishing Plant (Nirenberg)

Desizing of Synthetic Blends (Nuessle, Lindsly and Kantner)

Differential Thermal Analysis in Predicting Fiber Blend Properties and Other Fabric Properties for Cotton (Orr, Hebert, Weiss, Tosi and Gran)

Cotton Fabrics, Some Characteristics of Experimental Yarns (Krasny, Watson and Tovey)

Cotton, Electron Microscopy of Chemically Modified (Rodriguez, Srivas
tan, Hoffman and Moore)

Cotton Fabrics, Some Characteristics of Experimental Warm (Lofty, Krasny, Watson and Tovey)

COUNCIL HIGHLIGHTS

P204, P277
Crease Recovery, Fabric, Some Relations Among Fiber Properties and Other Fabric Properties for Cotton (Ort)

Crosslinking of Cellulose—The (Sieve)

Crosslinking of Cotton Cellulose with Gaseous Formaldehyde in the Presence of Various Compounds (The, Gonzales and Guthrie)

Crosslinking Methods and Delayed Curing Processes, Performance Qualities of Cotton Fabrics Treated by Cooper Jr, Reeves, Walker, Hoffman and Moore

Cutting Process, The Delayed (Baumgartner)

Cutter Aspects of Permanent Crease and Permanent Press Processing, The (Milholland)

Delayed Cure Process, The (Baumgartner)

Design, Statistical Experimental, in Textile Applications (Kocher)

Design of Synthetic Blends (Nuesca, Lindsay and Kaun)

Determination of Free Formaldehyde (Morgan and Vail)

Differential Thermal Analysis in Predicting Fiber Blend Performance and Probing Fiber Properties (Niagara Frontier Section)

Digital Color Computer Matching (Allen)

Direct Dyes, Problems in the use of (Salvin)

Dimensions, The, Thermodynamics of (Tine Pigment)

Dye-Fiber Interactions, The Influence of, on Dyeing Properties (Zolinger)

Dyeing and Finishing of Core-Spun Spandex Fabrics (Well)

Dyeing and Finishing of Du Pont's Self-Crimping Fibers (Paris, Parker & Saylor)

Dyeing and Finishing of Spandex Fabrics (Stump)

Dyeing and Finishing Plant, Modernization of a Textile Plant (Riley)

Dyeing and Tanning Leather in the Sixteenth Century (Graham)

Dyeing and Wet Processing of Stretch Fabrics (Wagner and MacLeish)

Dyeing of Blends Containing Dacron Polyester and Lycra Neoprene Fibers (Parrish, Larson and Thomas)

Dyeing of Polyester/Cotton Fabrics with Vat Disperse Dye Blends, The (Elis)

Dyeing of Polyester/Cellulose, The (Metropolitan Section)

Dyeing Polyester Fabrics and Polyester Blend Fabrics by the Pad-Process (Kerr and Farrer)

Dyeing, Yarn, Roving and Textile Yarns (Myles)

Dyeing Interactions, The Influence of, on Dyeing Properties (Zolinger)

Dyeing and Finishing of Core-Spun Spandex Fabrics (Well)

Dyeing and Finishing of Du Pont's Self-Crimping Fibers (Paris, Parker & Saylor)

Dyeing and Finishing of Blends Containing Du Pont's Self-Crimping Fibers (Well)

Dyeing and Finishing Plant, Modernization of a Textile Plant (Riley)

Dyeing and Tanning Leather in the Sixteenth Century (Graham)

Dyeing and Wet Processing of Stretch Fabrics (Wagner and MacLeish)

Dyeing of Blends Containing Dacron Polyester and Lycra Neoprene Fibers (Parrish, Larson and Thomas)

Dyeing of Polyester/Cotton Fabrics with Vat Disperse Dye Blends, The (Elis)

Dyeing of Polyester/Cellulose, The (Metropolitan Section)

Dyeing Polyester Fabrics and Polyester Blend Fabrics by the Pad-Process (Kerr and Farrer)

Dyeing, Yarn, Roving and Textile Yarns (Myles)

Dyeing Interactions, The Influence of, on Dyeing Properties (Zolinger)

Dyeing and Finishing of Core-Spun Spandex Fabrics (Well)

Dyeing and Finishing of Du Pont's Self-Crimping Fibers (Paris, Parker & Saylor)

Dyeing and Finishing of Blends Containing Du Pont's Self-Crimping Fibers (Well)

Dyeing and Finishing Plant, Modernization of a Textile Plant (Riley)

Dyeing and Tanning Leather in the Sixteenth Century (Graham)

Dyeing and Wet Processing of Stretch Fabrics (Wagner and MacLeish)

Dyeing of Blends Containing Dacron Polyester and Lycra Neoprene Fibers (Parrish, Larson and Thomas)

Dyeing of Polyester/Cotton Fabrics with Vat Disperse Dye Blends, The (Elis)

Dyeing of Polyester/Cellulose, The (Metropolitan Section)

Dyeing Polyester Fabrics and Polyester Blend Fabrics by the Pad-Process (Kerr and Farrer)

Dyeing, Yarn, Roving and Textile Yarns (Myles)

Dyeing Interactions, The Influence of, on Dyeing Properties (Zolinger)

Dyeing and Finishing of Core-Spun Spandex Fabrics (Well)

Dyeing and Finishing of Du Pont's Self-Crimping Fibers (Paris, Parker & Saylor)

Dyeing and Finishing of Blends Containing Du Pont's Self-Crimping Fibers (Well)

Dyeing and Finishing Plant, Modernization of a Textile Plant (Riley)

Dyeing and Tanning Leather in the Sixteenth Century (Graham)

Dyeing and Finishing Plant, Modernization of a Textile Plant (Riley)
COLOUR INDEX

The 1963 SUPPLEMENT to the Second Edition of the Colour Index now brings this important reference work up to date.

This 1,124-page volume contains dyes introduced since the publication of the 3,152-page Second Edition in four volumes. The Commercial Names Index has been completely revised. Information on fastness testing has been up-dated. The Section on Sulphur Dyes has been rewritten and a new section on reactive dyes has been added.

The Colour Index is the only complete reference of coloring matters available. It includes information on methods of application, colorfastness, chemical structure, characteristic reactions, index of products and trade names, fastness tests and rating methods, new and old Colour Index numbers, Schultz and AATCC prototype numbers and a hue indication chart.

Now sold as a five-volume set, the Colour Index and Supplement is specially priced at $154.00. Those now holding the four-volume set of the Colour Index may purchase the supplement for $42.00, postage paid. Orders in the United States, Mexico, Central and South America, excluding British possessions, should be placed with:

AMERICAN ASSOCIATION OF TEXTILE CHEMISTS AND COLORISTS

PO Box 886, Durham, NC 27702

In other countries, orders should be addressed to:

THE SOCIETY OF DYERS AND COLOURISTS

19 Piccadilly, Bradford, Yorks, England
