INDEX TO VOLUME 55 (1966)

A

ALEXANDER, E N—— Deferred Cure Process for Durable Press P602
ALLAN, J M—— Solvent Applications of Chemicals to Textile Materials P1113
ANASZEWICZ, H—— Fibers Used in Flocking P232
ASQUITH, R S, TODD, R E and PETERS, A T—— The Influence of Fiber Substrate on the Fading Properties of Nitrophenylamine Dyes 560
ASSAF, J E—— Military Applications of Coated Fabrics P376

B

BENINATE, J V, DRAKE JR, G L, KELLY, E L AND REEVES, W A—— Solling and Soil Removal of Some Modified Crosslinked Cottons 37
BENZ, J and THUMM, O—— The Analysis of Reactive Dyeings on Cellulosic Fibers 2

C

CARBONELL, J—— Level Dyeing Problems with Acrylic Fibers P956

INDEX BY AUTHORS

CAROSELLI, R F—— Beta, A New All-Purpose Textile Fiber P294
CATES, D M, LEMONS, J H and SAKER, S K—— The Effect of Various Organic Compounds on Polyethylene Tetraphthalate Fiber. II. Plasticization and Acceleration of Dyeing 76
CHOQUETTE, P J—— Continuing Developments in the Application of Dyes P912
CONNOR, C J—— Weather-Resistant Treatment for Jute Burlap 1096
CONNOR, C J and SLOAN, J M—— Silicone Release Agent for More Accurate Monsanto Wet Wrinkle Recovery Testing 441
CONWAY, R A and WAGGYY, G T—— Biodegradation Testing of Typical Surfactants in Industrial Usage P607
COOPER, J R, A S, St Mard, H H and HAMALAINEN, C—— Colorless Weather-Resistant Finish for Outdoor Cotton Fabrics 1046
CREEGAN, H F—— New Developments in Wet Processing Machinery P91

D

DAS GUPTA, S—— Radiation-Induced Grafting of Mixed Monomers on Cotton Fabrics P211
Outdoor Cotton Fabrics, Colorless Weather-Resistant Finish
Padder, The Daiwa Vibro Washer, Jigger and (Rudnick)
Pad-Steam Dyeing, Stable Reducing Agents in Continuous, with Vat Dyeuffs (Schonrock)
Permanent Press: Major Accomplishments and Current Problems (Stitt)
Pigments, Dyeing of, on Cellulotic Fibers (Ryan)
Pollution Control Program, Recent Developments in the Federal Water (Megregian)
Polyamide and Polyamide/Cotton Blends Dyeings of, and Polyester and Polyester/Cellulosic Blends (Hollis)
Polyamide, A Reactive Polyamide to Improve Wet Wrinkle Recovery and Abrasion Resistance of Wash-Wears (Harp Jr, Blanchard and Reid)
Polyester and Polyamide/Cellulosic Dyeing of, Polyster Cotton Fabrics, A Study of the Effect of High Temperature Heat Treatments on Dispersed Dyed, (Palmetto Section)
Polyester Fibers, The Dyeing and Finishing of Permanently Texturized (Doby)
Polyethylene Terephthalate Fiber, The Effect of Various Organic Compounds on, II, Plasticization and Acceleration of Dyeing (Leons, Kaiser and Cates)
Polypropylene Fiber, PFA—A New Dyestuff for Pressure (Press)
Polypropylene, Latest Developments in (Farber)
PFA—A New Dyestuff for Polypropylene Fiber (Press)
Practical Aspects of Exhaust Dyeing with Naphtol (Schneider)
Practical Methods for Dyeing Acrylics and Acrylic Blends (Theil)
Preparation of Outerwear Fabrics and Carpets by Flocking, Practical Methods for Dyeing Acrylics and Acrylic Blends (Theil)
President's Address (Fortess) P940
Project—A Success . . Research Incomplete (Reeves)
Properties at Ultimate Elongations for Better Descriptions of Stretch-Cotton Textiles (Goldthwait)
Quick-Drying, Easy-Care Cotton Fabrics, The Development of (Hollies and Kraney)
Radiation-Induced Grafinng of Mixte Monomers on Cotton Fibers (Das Gupta)
Reactive Polyamide to Improve Wet Wrinkle Recovery and Abrasion Resistance of Wash-Wears, A (Harp Jr, Blanchard and Reid)
Recent Developments in the Federal Water Pollution Control Program (Megregian)
Release Agents, Stable, in Continuous Pad-Steam Dyeing with Vat Dyeuffs (Schonrock)
Release Agent, Silicone, for More Accurate Monsanto Wet Wrinkle Recovery Testing (Conner and Sloan)
Role of National Headquarters in AATCC, The (Palme)
Rope Bleaching Equipment, The Latest in (Vossenbaumer)
Rotary Vertical Crockmeter, New Crock Testing Machine, for: (the Finisher)
Scouring Techniques and Fadable Yellow in Carpet Wools Review
Sculptured Cotton Lace by Differential Shrinkage Treatment (Robinson, Cooper)
Shrinkage-Resistant Control on Dyed Goods (Fink)
Shrinkage Treatment, Sculptured Cotton Lace by Differential Shrinkage-Resistant Control on Dyed Goods, A (Harp Jr, Blanchard and Reid)
Silicone Release Agent for More Accurate Monsanto Wet Wrinkle Recovery Testing (Conner and Sloan)
Sodium Bromite Désizing (Holbrook, Doer, Stittler and Newell)
Sodium Hyochlorite Bleach-An Aid to Textile Processing (Nettles)
Some of the Happy History of the Use of, in the Diazotization Reaction (Wilcox Jr)
Softerner Efficiencies, An Inquiry into the Application Considerations on (Northern New England Section
Softener Level, An Assessment of Weights and Relationships Between, and People's Appreciation of Fabric Hand (Midwest Section)

T
Tariff Commission Hearings, Report on the US, on the American Selling Price System of Customs Evaluation

U
Ultraviolet Absorbers, Effects of, on the Sunlight Resistance of Various Types of Nylon (Delaware Valley Section)

V
Valve Dyeuffs, Stable Reducing Agents in Pad-Steam Dyeing with, (Schonrock)
Vats and Naphthol, Dyeing of (Wilcox)

W
Washer, The Daiwa Vibro, Jigger and Padder (Rudnick)
Washer, The New Jigger (Rudnick)
Wash-wear Cottons, A Reactive Polyamide to Improve the Wet Wrinkle Recovery and Abrasion Resistance of (Harp Jr, Blanchard and Reid)
Weathering, Acid Colloid Fabric, Partial Hydrolysis Its Effect on (Palme)
Weather-Resistant Finish, Colorless, for Outdoor Cotton Fabrics (St Mard, Hanalainen and Cooper Jr)
Weather-Resistant Finish, More Accurate Monsanto, (Conner and Sloan)
What to Test for Durable Press: A Symposium Sponsored by the AATCC Durable Press Technology Committee
Wood Blends, Acrylics, The Dyeing of (Ledy)

January 16, 1967 • American Dyestuff Reporter
This index is also published as a separate 8-page reprint to facilitate its insertion into bound volumes of ADR. For your free copy, write to 'Index', American Dyestuff Reporter, 44 East 23rd Street, New York, NY 10010.
