The oxidation of alkali cellulose I—An experimental study of the reaction.
The polymerization of polyvinyl acetate.
The change of the original state on the surface of textiles.
The effect of temperature on the rate of chemical reaction.
The distribution of dyes in textiles.

The use of urea as a solvent for cellulose}

ABSTRACTS OF INTERSECTIONAL PAPERS

A cryllic fiber and its use in colored textiles, the dyeing of wool, cotton, silk, and rayon. (Egiton)

Cellulose acetate rayon, the action of light on, and nylon dyed with duranol, dispersol, S.R.A., and solacet.

Cellulose chemistry, division of the American chemical society, abstracts to be presented at meetings of the society.

Chairman and vice-chairman for Atlantic city convention.

Changes, dimensional, in south viscos rayon fabrics during processing on machinery used in shrinkage stabilization finishing (Philadelphia)

Chairmen in research committee and personnel.

Characteristics and dyeing methods, practical tests for quan.

Dyeing, a proposal for evaluating the northern new england section.

Dyeing, Harold M. the man (carroll)

Dyeing, Harold M. the man (Wood)

Dyeing, the action of on, and nylon dyed with duranol, dispersol, S.R.A., and solacet.

Dyeing, the identification of "Orion acrylic fiber and its use in colored textiles.

Dyeing, the pulverizing of wood wool, some aspects of the
