PHILADELPHIA SECTION

Reports........................................................................................................................................... P595, P537

December 21, 1953

AMERICAN DYESTUFF REPORTER
AATCC RESEARCH SUBCOMMITTEE ON COLORFASTNESS TO LIGHT

Report on Comparative Sunlight and Fade-Ometer Tests of Selected Dye Manufactured Fiber Samples................................. P748

Test for Chlorine Retention in Textile Fabrics, Proposed Laboratory Procedure and Accelerated Testing Methods(Wham and Thomas)........................................................................................................ P729

Test for Chlorine Retention Properties in Rein-Treated Fabrics, Proposed Laboratory Procedure and Accelerated Testing Methods(Wham and Thomas)........................................................................................................ P729

Test Methods, Reprints of.................................................................................................................................................. P729

Testing Program, AATCC in the International.......................................................................................................................... P730

Technical Papers, Abstracts of........................................................................................................................................ P730

Dyeing, Symposium—......................................................................................................................................................... P730

Symposium—Dyeing Synthetic Fibers................................................. P730

Synthetic Fibers, Dyeing Symposium—................................................................. P730

Synthetic Fibers, The Dyeing and Processing of Synthetic Fibers with Special Reference to Electronic Textiles—(Panel Discussion)....................................................................................................... P730

INDEX BY AUTHOR

...
CHLORINE RETENTION IN TEXTILE FINISHES

Recent Advances in Dyeing Orion Acrylic Fiber and Dacron Polyester Fiber and Blends with Other Fibers

New Developments in the Dyeing of Orion Acrylic Fiber

Variables Affecting Dye Fixation in Padding

Textile Odors and Deodorants

The Ideal Military Fabric

The Effect of Conditioning on Crease-Recovery in Acetates

Some Aspects of Detergency and Detergent Testing

The Application of Dyes to Textile Fibers at High Temperatures

The Influence of Preparation and Method of Dyeing and Finishing on the Color and Colorfastness of Vat-Dyed Cottons

A Compression Extraction Method for Extracting Textile Materials

The Effect of Flow Rates on Beam Dyeing—Controlling Beam Density

A Study of New Techniques in Warp-Size Preparation

The Physical Action of Surface-Active Agents in the Mechanism of Conditioning

An Educational Color Trial on 16.3-Gram Shrink-Resistant Wool

A Compression Extraction Method for Extracting Textile Materials

Highlights of the Past Year

Preliminary Steps in the Development of an Accelerated Laboratory Test for Chlorine-Retention Properties in Resin-Treated Fabrics

Further Steps in the Development of an Accelerated Laboratory Test for Chlorine-Retention Properties in Resin-Treated Fabrics

Chlorine-Resistant Properties of Resin-Finished Rayon Fabrics

Strength Changes in Melamine-Formaldehyde Resin-Finished Rayons

Strength Changes in Urea-Formaldehyde Resin-Finished Rayons

Chlorine Retention in Textile Fabrics

Silk Purse from Sows' Ears

The Effect of Conditioning on Crease-Recovery in Acetates

Applications of Fluorescent Agents in Hydrogen Peroxide Bleaching of Textile Materials

A Preliminary Study of the Sizing of Staple Orion and Dacron

Some Aspects of Detergency and Detergent Testing

An Educational Color Trial on 16.3-Gram Shrink-Resistant Wool

The Physical Action of Surface-Active Agents in the Mechanism of Conditioning

Highlights of the Past Year

Applications of Dyes to Textile Fibers at High Temperatures
During 1954

AMERICAN DYESTUFF REPORTER

OFFICIAL PUBLICATION OF THE PROCEEDINGS, AMERICAN ASSOCIATION OF TEXTILE CHEMISTS AND COLORISTS

WILL APPEAR ON FOLLOWING DATES:

JANUARY ..............4-18
FEBRUARY .............1-15
MARCH ...............1-15-29
APRIL ...............12-26
MAY .............10-24
JUNE ............7-21
JULY .............5-19
AUGUST ..........2-16**30
SEPTEMBER .........13-27
OCTOBER ..........11-25
NOVEMBER ..........8-22
DECEMBER .........6-20

*Textile Machinery Exhibition Number
**AATCC Convention Issue
***Annual Processing Review Number
