Light Fastness of Cotton Colors, The Effect of Modern Finishing Agents on the...

Light Fastness Testing Equipment and Color Matching Lamps, Three-Phase Light Sources of Interest to the Textile Industry as Applied to Accelerated (Dorcas).

Light Sources of Interest to the Textile Industry as Applied to Accelerated Light Fastness Testing Equipment and Color Matching Lamps, Three-Phase (Dorcas).

Linens, Washing Dirty (Harnard).

Matching Lamps, Three-Phase Light Sources of Interest to the Textile Industry as Applied to Accelerated Light Fastness Testing Equipment and Color (Dorcas).

Metals in Dyed Cottons to be R伯ized, The Source of (Seiber).

Microscopic Examination of Cotton Fibers in Cuprammonium Hy dotride Solutions (Hoch and Martin).

Microscopic Observations of Wool Dyeing—Part II (Luckiesh and Hr).

Phase Light Sources of Interest to the Textile Industry as Applied to Accelerated Light Fastness Testing Equipment and Color Matching Lamps, Three-Phase (Dorcas).

Physical Chemistry of the Newer Detergent Processes (Dole).

Plastics, The Economic Use of Sodium Hydroxide in Textile Processing (Dorcas).

Polymerization and the Production of New Synthetics (Harold).

Preliminary Observations on the Manufacture of Sodium Hydroxide in Textile Processing (Dorcas).

Processing of Tubular Knit Goods, A Consideration of the Practical Aspects of the Dyeing and Detergent Processes (Dorcas).

Progress, Recent Developments in the Chemistry of Silk and Silk (Scotch).

Processing Yarn for Ingrain Knitting (Smith).

Rayon Dyeing and Finishing (Hazel).

Rayon Finishing, The Present Trend of Textile (Roberts).

Rayon Finishes, Development of Synthetic Resins for Hosiery (Haynes).

Rayon Finishes, Semi-Resin (Trowell).

Rayon Finishes, Semi-Resin (Trowell).

Rayon Finishes, Development of Synthetic Resins for Hosiery (Haynes).

Rayon Finishes, Semi-Resin (Trowell).

Rayon Finishes, Development of Synthetic Resins for Hosiery (Haynes).

Rayon Finishes, Semi-Resin (Trowell).

Rayon Finishes, Development of Synthetic Resins for Hosiery (Haynes).

Rayon Finishes, Semi-Resin (Trowell).

Rayon Finishes, Development of Synthetic Resins for Hosiery (Haynes).

Rayon Finishes, Semi-Resin (Trowell).

Rayon Finishes, Development of Synthetic Resins for Hosiery (Haynes).

Rayon Finishes, Semi-Resin (Trowell).

Rayon Finishes, Development of Synthetic Resins for Hosiery (Haynes).

Rayon Finishes, Semi-Resin (Trowell).

Rayon Finishes, Development of Synthetic Resins for Hosiery (Haynes).

Rayon Finishes, Semi-Resin (Trowell).

Rayon Finishes, Development of Synthetic Resins for Hosiery (Haynes).

Rayon Finishes, Semi-Resin (Trowell).

Rayon Finishes, Development of Synthetic Resins for Hosiery (Haynes).

Rayon Finishes, Semi-Resin (Trowell).

Rayon Finishes, Development of Synthetic Resins for Hosiery (Haynes).
Soap—A Discussion of its Position as Related to its Industrial Con-

South, Meeting to Organize Extension Courses in Textile Chemistry,

Shea Butter, its Use in Textile Dyes and Finishing in the

Spinning for the Production of Special Viscose Rayon Filaments,

Two-Stage (Hall)

Spun Rayon with Textone, The Treatment of (Vincent, Dubeau and

Standardization of Color Names: The ISCC-NBS Method (Nickerson)

Surface Active Agents of Trivalent Nitrogen Type, Analysis of Cationic

Synthetics, Polymerization and the Production of New (Harold) ............

Testing Equipment and Color Matching Lamps, Three-Phase Light Sources of Interest to the Textile Industry as

The Prevention of Dull Shades due to the Presence of Iron in the

Dyebath, When Dyeing with Chrome Dyes: Part I—Iron in the Water,

Application of Vat Dyes to Viscose Rayon.

The Determination of Traces of Copper in Fabrics

Significance of Temperature in Wool Dyeing: II—A Study of the AcidCombining Capacity of Wool

The Hydrosolubility of Certain Aromatics Used as Dye Intermediates in the Manufacture of Disperse Dyes

The Petroleum Industry in France

The Absorption of Substantive Dyes by Cellulose from Solutions of very concentrated Salt Concentration, etc.

Note upon the Absorption of the Substantive Dye, Sky Blue FF, by Cellulose and Chinnon Orange R.

Ultra Violet Light

New Methods for Determining Substances in the Absorption of Substantive Dyes by Cellulose of the Acidic Type

The Action of Alkaline Oxides on Cellulose

Structure of Cellulose and other Polymers Related to Simple Sugars

The Modification of Cellulose by Oxidation. A Study of its Mererization.

Alkaline Agering Test for Textile Oils

Tests for Asperula Fibers

The Destruction and Formation of Dyestuffs by Action of Light

Army Uniform Fabrics Containing Cellulose Acetate

New Problems in Dyeing

Practical Hints

Direct Dyeing

An Accelerated Light Fastness Test in use at the Shirley Institute

Improvement of Substantive Dyes in Fastness to Water and Washing

Skinning in the Viscose AS Series

The Differennce between Lantial, Wool and Cassin

The Destruction of Vat Dyes in Wool

The Dyeing of Cellulose Materials: A Review of the Physics and Chemistry of the Dyeing Process

Physical and Colloidal Chemical Aspects of Mercerization

Printing Pigment Colors with Resin Bases

Progress in Bleaching and Dyeing of Textiles

Terms Relating to the "Hand" of Fabrics

Testing Equipment and Color Matching Lamps, Three-Phase Light Sources of Interest to the Textile Industry as

Textile the Treatment of Span Rayons with (Vincent, Dubeau and

Hydroxide, Combination of (Steinhardt and Harris) ....................

Methods in Producing Fast Shades on (Hall)

Wool, Wild Silk, Silk and Weighted Silks

Wool, Wild Silk, Silk and Weighted Silks

BY AUTHOR

AKIN, EMILY WILLIAMS, SPENCER, LILLY H. and

MACOMAE, A. E. — A Simple Device for Laying Out of Yards

BIBLIOGRAPHY ON Flameproofing of Textiles

TAKE, W. M. — Colored

BARNARD, KENNETH H. — ... 261

Barnard, Florence, M. B. and RACHEL

CADDY, WILLIAM H. — A Comparison of Carbon Tetrachloride, Naphtha, and Water for the

Dyeing and Processing of (Gleklen)

The Destruction and Formation of Dyestuffs by Action of Light

Army Uniform Fabrics Containing Cellulose Acetate

New Problems in Dyeing

Practical Hints

Direct Dyeing

An Accelerated Light Fastness Test in use at the Shirley Institute

Improvement of Substantive Dyes in Fastness to Water and Washing
