INDEX TO PROCEEDINGS OF THE
AMERICAN ASSOCIATION OF TEXTILE
CHEMISTS AND COLORISTS

BY SUBJECT

Abstracts of Papers to be Presented at Annual Meeting............................................. P93
Analysis of the Split Bath Method of Dyeing Silk Hosiery. An Appraisal of
Plasticized Filaments, A Study the Use of Polyurethane in Filamentous Macromolecules................................. P211
Army's Use of Exposure to Artificial Weathering, Some Observations on the
Exposure of Rayon and Nylon to Artificial Weathering........................................... P535
Army Socks, The Dyeing of (Hamilton)................................................................. P706
Auxiliary Finishing Agents for Continuous Dyeing Processes, The Use of
Betel in the Testing of Mothproofed Materials, The Effect of Black
Carpets (Slubaugh).............................................................................................................. P142
Blending, Testing the Textile Treated with Activating Agents with
Cuprammonium Fluidity. The Significance and Utility of Cuprammonium Fluidity
in Textile (Fennell)...................................................................................................... P481
Blends of Optical Fibers, The Blending and Control of Colored Fibers in
Business—Annual Meeting,................................................. P701
Calendar of Coming Events....................................................................................... P5, 31, 61, 89, 109, 141, 169, 199, 225, 251, 277, 299, 319,
347, 375, 401, 431, 460, 490, 515, 531, 551, 581, 615, 645,
675, 695, 725, 747
Carbonization Methods for the Determination of Wool in Mixed Fabrics
Compared in an Interlaboratory Study, The, The Characteristic Acid of
Aluminum Chloride (Weidehammer, Prisley and Ryberg)............................................. P659
Cationic Auxiliaries (Moher) .................................................................................... P432
Cationic Finishing Agents on Direct Dyed Fabrics: The Effect of
(Ackley)................................................................................................................................ P438
Chemical Manufacturer and the National Emergency, The (Powers)........ P593
Chemist Meets National Defense Emergency, The Textile (Fennell)........ P278
Color Council of the A.A.T.C.C. A 1941 Review of the Inter-Society
Conference and Meeting, The................................................. P679
Color Council, Report of the A.A.T.C.C. Delegates to the Inter-
Society Conference.................................................................................. P679
Color Alternated Blends by Optical Means, The Prediction and Control of
Colors in the Pad Pigment Method of Jig Dyeing, Relative Exhaustion
of the Dyes (Hosmer)................................................................................................. P656
Colors, Olive Drab Uniform............................................................................... P441
Colors, Olive Drab Uniform .................................................................................. P441
Colors, Olive Drab Uniform.................................................................................. P441
Color Standards, Modern Finishing Agents on the Light Fastness
of Cotton (Discussion).............................................................................................. P592
Committees, Convention.................................................................................. P592
COMMITTEE ACTIVITIES................................................................................................. P592
Re: The Source of Wool and its Relationship to Wool Dyeing........................ P535
Combination of Direct and Dispersed Finishes, The Effect of Spinning
Agents on the Finishes (Morgan)............................................................................... P119
Contact, Interlaboratory.................................................................................. P487
Control of Color Alternation by Optical Means, The Prediction and
Control of Colors, Olive Drab Uniform (Hosmer)............................................. P656
Convention Committees.................................................................................. P592
Convention, Twenty-fifth Annual Meeting and
Correspondence.......................................................................................... P99, 714
Cost of Dyeing in Woolen Mills, A System for Controlling the (Prisley).... P576
Cotton Colors, Modern Finishing Agents on the Light Fastness
of Cotton (Discussion).............................................................................................. P592
Cotton for Fastness to Hypochlorite Bleaching, Testing for the
Speed of Reaction of Cotton with Activating Agents with
Cuprammonium Fluidity. The Significance and Utility of Cuprammonium Fluidity
in Textile (Fennell)...................................................................................................... P481
Cotton for Fastness to Hypochlorite Bleaching, Testing for the
Speed of Reaction of Cotton with Activating Agents with
Cuprammonium Fluidity. The Significance and Utility of Cuprammonium Fluidity
in Textile (Fennell)...................................................................................................... P481
Cot...
MEETING, TWENTIETH ANNUAL

Intersection: Development of a New Method of Dyeing Wool (Hartquist)

An Analysis of the Split-Bath Method of Dyeing Silks (Riley)

Screen Printing Cotton Table Damask (Piedmont)

Some Observations on the Tendering of Vat and Naphthol Dyes and Namol Dyes in the North (Broadhead)

Variables Encountered in the Jet Dyeing of Wool (Sedgwick)

The Use of the Black Carpet Beetle in the Testing of Moth-Proofing Preparations and Identification of Moth (Slabaugh)

The Evaluation of Water-Resisting Textile Finishes (Slowinske)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)

Screen Printing Cotton Table Damask (Piedmont)

The Evaluation of Finishing Agents for sanforizing (South Central)
