FOR your convenience there appears below a list of page numbers in the respective issues for 1945. Those in the first column indicate the numbers of the general pages and those in the second column indicate which pages appeared in the Proceedings of the American Association of Textile Chemists and Colorists.

The presence of the letter "P" before the page number, anywhere in this index, indicates that the article appeared in the Association Proceedings.

### General Index

### Abstracts from Contemporary Journals

- The Mechanism of Felted of Wool Fibers
- Use of Aureolites to Make Wool Unshrinkable
- Cellulose and Other Polymers: I. Reaction of Carboxyl with Acid Groups and Alkalies
- Reduction of Copper Sulfate
- Spotty Effects in Textile Printing
- Dyeing Properties of Wool, silk, and Bemberg Yarns
- The Dyeing of Cotton with Mineral Khaki: Part V.
- Synthetic Protein Fibers from Protein-Detergent Complexes
- Abstracts of Inter Haydtion Conference Papers to Be Presented at the Next Meeting
- Abstracts of Papers Presented at the Meeting—Print of the Division of Colloid Chemistry of the American Chemical Society
- Acid Dyes by Wool, silk, casein fiber and nylon, the absorption of by wool
- Acetone-Water Relationships on Wood (Nucler)
- Ageing of Cotton Fabrics, Report of the Committee on American Chemical Society
- Abstracts of Papers—Division of Colloid Chemistry
- Meeting in the Division of Colloid Chemistry of the American Chemical Society, Abstracts of Papers
- Symposium on Some New Instruments and Testing Methods
- Time Study and Motion Economy for Supervisors
- The Chemical Formulary
- New Methods to Make Textile Safety Effective
- The Measurement of Colour
- How to Train Associates
- The Pirates will get you...
- What the Foreman Needs for Success
- Textile Test Ordnance
- Time Study and Motion Economy for Supervisors
- The Standard Fading Lamp at the National (Launer)
- Burndown Standards and Methods of Testing Lamps in Terms of It, the Standard Fading Lamp at the National (Launer)
- Burndown Test for Roasted Cotton Fabrics, the Soiled Strip (Strickland and Berard)
- Calibrating other Lamps in Terms of It, the Standard Fading Lamp at the National (Launer)
- Calibration of Carbon Arc Lamps Used for Testing and Grading Light Fastness, a Proposed Method for the Calibration of (Seiber)
- Carbon Arc lamps used for testing and Grading Light Fastness, A Proposed Method for the Calibration of (Seiber)
- Casein Fiber and Nylon: The absorption of Acid Dyes by wool, silk, and (skinner and vickerstaff)
- Cellulose Derivatives, Some Aspects in the Filling of Cotton, Muslin and Nettings with (goodyear)
- Color Matching by Young and Ulich (goodyear)
- Color, Report of Committee on Transference of
- Color Transference, A New Tool for Evaluating (bolle)
- Conditioning Laboratory
- Consumer Needs in Textiles, Mearing (coughlin)
- Consumer Textiles, Flammability of (aac)
- Consumer Textiles, Recommendations of the Sub-Committee of the A.A.T.C.C. on Flammability of (aac)
- Consumer Textiles, Report of Committee on Flammability of (hazer)
- Consumer Textiles, Report of Committee on Flammability of (hazer)
- Continuous Dyeing Process, The Pol-Sheet (mcmillan)
- Continuous Dyeing Process, The Pol-Sheet (mcmillan)
- Cotton Fabrics, Observations on the Growth of Some Copper-Timeless on Bright Yarn (bergen, crowley and buchmann)
- Cotton Fabrics, Report of Committee on Ageing of (aac)
- Cotton Fabrics, The Soil Burial Test for Roasted Cotton (dean, strickland and berard)
- Cotton Group Meeting (newman)
- Cotton, We Can Expect from Resins in the Treatment of (strickland and berard)

### By Subject

- A.A.T.C.C. and Suter Hydrostatic Pressure Testers, A Comparison of (mandels and rhyberg)
- Absorption of Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorption of (skinner and vickerstaff)
- Acid Dyes by wool, silk, casein fiber and nylon, the absorpti
