

Table of Contents

- 1 Fabric Surface Characteristics and their Impact on Digital Textile Printing Quality of PET Fabrics**
By Jihye Lim and Lisa Parrillo Chapman, North Carolina State University
Key Terms
Colorfulness, Color Strength, Crockfastness, Inkjet Digital Textile Printing, Pigment Inks, Pretreatment, Shade Depth, Wettability, Yarn Types
DOI: 10.14504/ajr.6.1.1
- 10 Antibacterial Properties of White Cotton/Naturally Brown-Colored Cotton Blended Fabrics**
By Jia Wang, Mingbo Ma, and Wenlong Zhou, Zhejiang Sci-Tech University
Key Terms
Antibacterial, Blended Cotton, Laundering, Naturally Brown-Colored Cotton, Scouring, Sunlight Exposure
DOI: 10.14504/ajr.6.1.2
- 15 A Comparison of the Accelerated Solvent Extraction Method to the Soxhlet Method in the Extraction of Cotton Fiber Wax**
By Chanel Angelique Fortier, Michael Santiago Cintron, Donna Peralta, Terri Von Hoven, Krystal Fontenot, James E. Rodgers, and Christopher Delhom, USDA-ARS-SRRC
Key Terms
Accelerated Solvent Extraction, Cotton Fiber Wax, Soxhlet Extraction
DOI: 10.14504/ajr.6.1.3
- 21 A Study of Behavior of Sesame Dyeing on Nylon**
By C. E. Zhou, Jiangnan University, Q. Zhang, Shanghai Textile Technology Industry Park, and C. W. Kan, The Hong Kong Polytechnic University
Key Terms
Colorfastness, Dyeing Behavior, Nylon, Sesame
DOI: 10.14504/ajr.6.1.4
- 29 Fuzzy Modelling for Prediction of Bursting Strength of Knitted Cotton Fabric using Bleaching Process Variables**
By Abu Naser Md. Ahsanul Haque, Shamima Akter Smriti, Nawshin Farzana, Fahmida Siddiq, and Md. Azharul Islam, Daffodil International University
Key Terms
Bleaching, Bursting Strength, Cotton, Fuzzy Logic, Knitted Fabric, Modelling
DOI: 10.14504/ajr.6.1.5
