

Sunset Glow

Design concept

The dress is aimed at adult dwarfism women. Due to the small size of most dwarfism patients, many adult dwarfism patients have to buy children's clothes to wear, but children's clothes are not suitable for adults. And because most people with dwarfism are disproportionately thin, with bulging bellies and limbs that are too long or too short, most clothes don't fit. Adult women with dwarfism have the hardest time buying clothes because they often can't find the right fit. My goal was to design a dress that a grown woman with dwarfism could wear gracefully for everyday situations.

Material

- Polyester cloth – dress
- Polyester lining
- Polyester ribbon- waistband
- Zipper
- Elastic band
